To Whom It May Concern:

Marina Hert has worked with our company on a freelance basis as an interpreter and translator since February 2015. She has assisted us by performing numerous English into German translations (instruction leaflets, product presentations, quotes, business letters and e-mails) and interpreting at meetings with our client.

Marina Hert has excellent interpreting and translation skills. She's always been confident and professional. She promptly became acquainted with our product and company terminology. We appreciate her outstanding language knowledge and reliable support at customer negotiations. She always delivered our translations on time and of very good quality. She is still contact person for our client, and we steadily can rely on her expert services as well as on utmost degree of confidentiality.

I consider Marina Hert to be a valuable contact person in language issues who consistently achieved good results and delivers all expectations.

I'd be happy to answer any questions you might have about Marina's translation and interpreting skills.

Best regards,

Industriekeramik Hochrhein GmbH

Marco Reinger
